READING

Read the website about students in different countries. How many lessons do they have each day?

I'm Salma and I'm from Egypt. Today, We got English, maths, social studies, Arabic, science and music. We have our science lessons in the laboratory. We must be careful in it! It's next to the library and opposite the toilets. We mustn't talk in the lessons, but we can talk at break in the playground. After break we have music. The music room is at the end of the corridor. It is on the first floor so I walk up the stairs.

My name's Jin Zhang. I'm a student at a sports school in China. You must be good at sports to go to this school. Today, I've got English, maths and science. The English classroom is on the first floor. After lunch. We can go downstairs to the changing room to get ready for PE. Then I must practise karate for five hours in the gym . I like karate. I travel to school by bus. The bus can't go into the playground, so it stops just outside the school gates

BEAUTIFUL CAIRO

The 382-metre-long Qasr al-Nil Bridge, with its two lion statues at each end, crosses over the Nile. There was a bridge here, Gezira Bridge, in 1872. However, the bridge became too busy, so Cairo needed a bigger one. King Fuad opened Qasr al-Nil Bridge in 1933. Many people like to walk along the pavements of the bridge in the evenings. You can walk across it from the east side to Gezira Island. There are wonderful views of the river from the bridge.

Tour guide: North Castle was once very beautiful. The tower on the left was higher than it is today. There were three floors and on each floor, there was one large room.

tourist 1: Excuse me. Can I ask you a question? Was there a river around the castle?

Tour guide: Yes, there was. That's why there is a bridge here. There were lots of fish in the river. But the river is dry now.

tourist 2: That's interesting.

Tour guide: Yes, the weather was very different here four hundred years ago.

tourist 1: Can I just ask who built the castle?

Tour guide: The king built it. He started building it in 1666 and finished it five years later in 1971. Now, where was I ?

tourist 2: You were talking about the weather.

Tour guide: Yes, it was very green here then. It rained a lot. Now, it doesn't rain very often. Now, I'll tell you about the rooms.

tourist 1: You I'm sorry to interrupt, but did the king live in the castle?

Tour guide: Yes, he did. OK, I was talking about the rooms. The room at the top of the tower was the dining room. on the second floor was the bed room. Now . let's go up these stairs to see the walls.

LESSON 4 READING

The Lighthouse of Alexandria stood on a small island near Alexandria to help boats at night. It was built at the time of King Ptolemy. He started building it in about ٢٩٠ BCE. He finished building it in about 283 BCE. Many earthquakes damaged the lighthouse. When the famous traveller Ibn Battuta visited Alexandria in 1349, he could not enter the lighthouse. It was too dangerous. By 1480, there was no lighthouse. The Sultan of Egypt built a fort where the lighthouse once stood. He used some of the stones from the old lighthouse to build it. Today, visitors can see Fort Qaitbey when they visit Alexandria.

The Muntazah palace is by the sea in Alexandria. King Abbas the 2nd built this as a home for himself in 1892. It has two towers and high walls around it on three sides. The other side faces the sea. You can't go inside the building now, but you can visit the beautiful gardens.

Read the emails. Which of the activities in exercise 1 are Tarek and Hassan going to do?

Hi Hassan,
I'm very excited about next weekend. We're going to go on a long journey to the countryside. We're going to stay with my grandparents on their farm! My dad's going to drive us there after school on Thursday. What are you going to do at the weekend? Have you got any plan?
Tarek.

Hello tarek,
I hope you enjoy yourself on the farm. Will you send me some photos? Next Friday is going to be an exciting day for our family. We're all going to go to a big party at my uncle's house. My relatives from England are going to come. It will be fun to meet them for the first time.
On Saturday, we're going to visit an ancient site, the temples at Abu Simbel. I'm doing a project about them. Then we're going to have a picnic, too. Enjoy your weekend!
Hassan.

CAIRO INTERNATIONAL STADIUM

Cairo International Stadium is in Nasr City which is in the northeast of Cairo and about ten kilometres from the airport. The stadium has 75,000 seats for people who want to watch sports. In 2006, this was the place where football teams played in the African Cup of Nations. Sixteen teams from countries all over Africa played in this competition, including Kenya. Morocco and Tunisia. The final was between Egypt and the Ivory Coast. Egypt won the competition, for the fifth time!

Cairo International Stadium is the home of Egyptian football. You can watch nearly all of the most important football matches there. But there are lots of spaces which are used for other sports: tennis, basketball, hockey, table tennis, squash and karate. There is a 50-metre swimming pool and diving pool. There is also a stadium where you can watch horse riding.

MY HERO

My hero, Yasser, is 22. He always wanted to be an engineer. However, when he was twelve, he had a car accident and he couldn't walk again. Life was difficult for Yasser at first, but he worked hard and became the best student in his class. When he finished school, he went to university and got a degree. Now Yasser has become an engineer.

Has life been easy for Yasser? No, it hasn't. Yasser hasn't won prizes and people haven't written about him in the newspaper. But he has taught me that with hard work, you can be successful.

OUR AMAZING WORLD

What's the driest place in the world?

The Atacama Desert in Chile is one of the driest places in the world. In some parts of the desert, it has never rained.

Have people ever lived there?

yes, they have. More than a million people still live there. Many tourists also visit the town of San Pedro de Atacama. They say that they've never seen more stars in the sky in any other place on earth.

Do people live in the Amazon rainforest?

Yes, they do. Some tribes live far from any city and have never left the rainforest. Some of these tribes have never met people from outside the forest.

Has it ever snowed in Cairo?

Yes, it has! In 2014, for the first time in many years, it snowed in Cairo. One 95-year-old man said, "I've never seen snow in my life before!"

Is there always ice in Antarctica?

Yes, there is. In Antarctica, some of the ice has never melted. There is more than 4,500 metres of ice in some places. The bottom of this ice is more than 100,000 years old.

MUSEUMS

Egypt has some very interesting museums.

- ★ Many people have visited the famous Egyptian Museum in Cairo. It's Egypt's biggest museum and it contains some very famous objects. There are about 136,000 historical objects in the museum. Most people want to see Tutankhamun and his jewellery.
- ★ In the Kharga Museum of Antiquities, you can learn about life in the Western Desert long ago. You can see lots of statues, coins and other objects that people have found there. The museum contains some famous 'notebooks' made of wood. These are some of the first books ever written from 360 CE.
- ★ When engineers started building the first Aswan Dam in 1902, many important objects from very old Nubian buildings were moved to keep them safe. The Nubia Museum in Aswan opened in 1998. It contains more than 5,000 of these objects which can teach us a lot about the history and life of the Nubian people. There is an outdoor museum too, where you can look at statues in beautiful gardens.

TV LISTINGS

A. Tonight's Who knows more? is at Alexandria University, where the competition started last night. The competition is between students studying science and students studying history. The science students are winning at the moment. They've got 20 right answers already. The competition isn't finished yet. Watch tonight's programme to see who wins.

B. Have you started watching Schools around the world yet? Every week, it's about a school in a different country. We've seen schools in Brazil and China already, but we haven't seen one in Egypt yet. They've just shown a school in Dubai. This was very interesting.

C. At nine o'clock there is a programme called Animal world. A university professor from Kenya will tell us why it is so important to look after animals. The programme is about a baby elephant. Its parents have just died. It is amazing to see how it is looked after by the other elephants

THE HISTORY OF COMMUNICATION

 In the past, people used to send a lot of letters because it was the best way to communicate with friends who were far away. They didn't use to send emails, like many people do today. How did they use to send these-letters?

 People began to write letters after the Chinese invented paper in around 100 BCE. The first envelopes were made of animal skins. Messengers used to carry the envelopes to people on foot. In the ninth century, Egypt was one of the first places to send letters to other countries using messengers on horses.

 In Iraq, when people took pigeons to a place. they knew they would fly home again. In the 1100s, people realised that this was a good way to send messages, so it used to be popular to send letters by pigeon. The birds carried the letters around their necks.

 Communication did not get much quicker until 1832, when people began to use the post office to send letters. Trains then began to carry letters in the USA. In the 1850s,telegrams (short electronic letters) made international communication easier and quicker, and in 1917, planes started taking airmail letters all over the world.

 In 1972, American Ray Tomlinson invented email. After that, anyone with a computer and the internet could send and get messages quickly. Now people send more than 182 billion emails around the world every day.

The history of TV

★ It's difficult to believe that people didn't use to watch TV! But in the early 1900s, there were no televisions in Egypt or any other country. When people were not working, they used to read, talk or play games.

★ In some countries, people first had televisions about 90 years ago, but televisions were very different from today. Before 1935, the picture on a TV screen was smaller than a postcard! Most TV programmes were in black and white.

★ In the 1940s, TV companies in the USA began to make programmes. However, colour TVs were very expensive, so most people who had television watched in black and white. Although Egypt had TVs in the 1960s, the country made its first colour TV programme in 1973.

★ Televisions were different in those days. People used to have to walk to the TV to change channels or turn the TV on and off. Now, we usually use a remote control to do that.

★ The first remote controls were made in 1948, the early remote controls couldn't change the channels, though. They could only make the pictures on the screen bigger or smaller. About ten years later, in 1955, the first remote control was made that is similar to the one we can use today.

The Internet

📖 Fifteen years ago, only a very small number of people in Egypt were able to go online. This has now changed. About a quarter of Egypt's population use the internet regularly, and this number is growing all the time.

📖 Using the internet isn't as expensive in Egypt as in some other countries. This is because the government wants people to use it.

📖 Websites can provide useful information about train timetables, post office prices, etc.

In a survey, 23% of internet users in Egypt said they use their mobile phones to go online.

Around 30% of internet users were secondary school and university students.

Social networking sites are the most popular reason for people to go online. Many people use these sites to communicate with their friends.

Many museums and tourist attractions put opening hours, directions and other information on social networking sites.

Other popular activities on the internet include watching films and videos, reading news and researching information.
